“Will <basketball team> win <year> NBA Division Championship?” Event Contract

Scope - These terms govern the trading of the Basketball Outcome Event Contract (the “Contract”), a type of “Event Contract” listed by the Exchange.

Underlying - The Underlying for this Contract is the official final result of whether <basketball team> wins <year> NBA Division Championship. Revisions to the Underlying made after Expiration will not be accounted for in determining the Expiration Value.

Source Agency - The Source Agencies are, in hierarchical order, NBA.com and the official statistics published on its public website,, ESPN, CBS Sports, Fox Sports, NBC Sports, the Associated Press, Reuters and the official broadcaster of <year> NBA Division Championship.¹

Type - The Type of Contract is a swap.

Issuance - The Contract is based on the outcome of a recurrent sporting event. Accordingly, Contract iterations will be issued on a recurring basis, and future Contract iterations will generally correspond to subsequent scheduled <year> NBA Division Championship within the same league or season as specified by the Exchange. The Exchange may, for any <year> NBA Division Championship, list a separate “to advance” iteration of the Contract, resolving with a <basketball team> advancing to a subsequent <year> NBA Division Championship as specified by the Exchange.

<basketball team> - Refers to a basketball team or entity participating in a <year> NBA Division Championship, as specified by the Exchange. <basketball team> may refer to a singular team, multiple teams using AND/OR logic, a team within a set of teams, or teams defined by distinguishing characteristics (e.g., “any Eastern Division team,” “the home team,” “teams with winning records,” “any Big Ten team”). <basketball team> may also take the values “Any” or “None.” The Exchange may list iterations of the Contract corresponding to variations of <basketball team>. If a team name changes, relocates, or undergoes organizational restructuring while maintaining substantial continuity, <basketball team> shall track the successor entity. This will be announced by the Exchange in the event it is relevant.

<year> - Refers to a specific, identified basketball season year (e.g., “2026-2027”, “2028”).

Trading and Settlement - During the Event Contract trading hours, Participants are able to adjust their positions and trade freely. After trading of the Event Contract has closed, Rothera will determine the Expiration Value and whether the Payment Criterion encompasses the Expiration Value (i.e. whether the outcome is “Yes” or “No”). The market is then settled by Rothera, and either the long position holders or the short position holders are paid the Settlement Value. In this case, “long position holders” refers to Participants who purchased the “Yes” side of the Event Contract and “short position holders” refers to Participants who purchased the “No” side of the Event Contract. If the Expiration Value is “Yes”, then the long position holders are paid the Settlement Value multiplied by the number of Contracts held by such Participant and the short position holders receive no payment. If the Expiration Value is “No,” then the short position holders are paid the Settlement Value multiplied by the number of Contracts held by such Participant and the long position holders receive no payment. Specification of the circumstances that would trigger an Expiration Value of “Yes” is included below in the section titled “Payment Criterion”. The Expiration Date of the Contract is designed to account for multiple possible contingencies regarding the timing of the determination of the event. Any subsequent revisions to the initial release of the final result of <year> NBA Division Championship by the league or association will NOT affect or alter the settlement value of the Contract once the Expiration Value is determined by the Exchange.

Payment Criterion - The Payment Criterion for the Contract encompasses the Expiration Value where <basketball team> is the winner of <year> NBA Division Championship. In order to be considered the “winner” of <year> NBA Division Championship, <basketball team> must have a strictly higher win percentage in the relevant NBA Division than other teams in the same Division, or the Source Agency declares <basketball team> the “winner.” The market resolves based on the first final result reported by the highest-ranked Source Agency in the hierarchy set forth above - a lower-ranked Source Agency’s report shall govern only if no higher-ranked Source Agency has published a final result, unless the Exchange, in its sole discretion, determines such result to be clearly erroneous and elects to defer to a corrected final result issued prior to Expiration.

Additional Clarifications:

- If the 2027 NBA Division Championship is (i) abandoned, cancelled, or (ii) not scheduled or not rescheduled to take place before the Expiration Time, the Contract will resolve based on the last fair market price as determined by the Exchange pursuant to Rothera DCM Rule 7.2. Long position holders will receive the number of Contracts held multiplied by the fair market price, and short position holders will receive the number of Contracts held multiplied by \$1 minus the fair market price.

- If <year> NBA Division Championship is suspended during play and is officially scheduled to resume from the point of suspension before the Expiration Time, the Contract shall remain open and shall settle based on the final result of the <year> NBA Division Championship as so resumed. If <year> NBA Division Championship does not resume from the point of suspension before the Expiration Time and no final result has been declared, the Contract shall resolve based on the last fair market price as determined by the Exchange pursuant to Rothera DCM Rule 7.2. Long position holders will receive the number of Contracts held multiplied by the fair market price, and short position holders will receive the number of Contracts held multiplied by \$1 minus the fair market price.
- If the 2027 NBA Division Championship is shortened, called, or otherwise ended before the completion of the NBA Regular Season, and the Source Agency declares the event final and records a winner, the market will resolve based on that final result.
- If New York Knicks forfeit the 2027 NBA Division Championship before the first game of the NBA Regular Season begins, the market for the forfeiting New York Knicks will resolve to “No”, and the opposing team’s market will resolve to “Yes”.
- If New York Knicks are disqualified, deemed ineligible, or have the result of the 2027 NBA Division Championship vacated after the NBA Regular Season has started but before the Contract expires, the market will resolve to “No” for the disqualified New York Knicks. If such disqualification causes the opposing team to be declared the winner, the market for that team will resolve to “Yes.”
- If the 2027 NBA Division Championship is delayed but is rescheduled, the market will remain open with settlement occurring no later than two (2) days after the rescheduled conclusion of the NBA Division Championship. Additionally, a change of venue does not affect resolution so long as a final result indicating a winner of the 2027 NBA Division Championship is recorded by the Source Agency.
- If the official Division result is delayed or unavailable, the Exchange may wait up to 24 hours after the Expiration Time for the result to become available, after which it may resolve the Contract in its sole discretion.
- If a Source Agency publishes a result that it subsequently retracts, corrects, or confirms was the result of a compromised, hacked, or erroneous source, the Exchange will rely on the final corrected result published by the Source Agency prior to the Expiration Time.

- All times are determined in Central Time (CT), which refers to Central Daylight Time (CDT, UTC-5) when daylight saving time is in effect, and Central Standard Time (CST, UTC-6) otherwise, in each case as observed in Chicago, Illinois on the applicable date. Reporting concerning the 2027 NBA Division Championship is considered through the Expiration Time on the Expiration Date and no later.

Expiration Value – The Expiration Value is the value of the Underlying as documented by the Source Agency on the Expiration Date at the Expiration Time.

Contingencies – If the Source Agency does not actually announce a result consistent with the settlement methodology or the Payment Criterion on or before the Expiration Time due

to a delay, postponement, cancellation or otherwise in such release announcement by the Source Agency, the Settlement Date, Expiration Date and Expiration Time will be extended as set forth in the Additional Clarifications section herein. In the event no result is confirmed within the extended period specified therein, the Contract shall resolve pursuant to DCM Rule 7.2. Consistent with Exchange Rule 7.2, Rothera reserves the right to make settlement determinations.
