

EXHIBIT A

“Will <hockey team> win the <hockey game>?” Event Contract

Scope - These terms govern the trading of the “Will <hockey team> win the <hockey game>?” Event Contract (the “Contract”), a type of “Event Contract” listed by the Exchange.

Underlying - The Underlying for this Contract is the official final result of whether <hockey team> will win the <hockey game>. Revisions to the Underlying made after Expiration will not be accounted for in determining the Expiration Value.

Source Agency - The Source Agencies are, in hierarchical order, NHL.com and the official statistics published on its public website, ESPN, CBS Sports, Fox Sports, NBC Sports, the Associated Press, Reuters and the official broadcaster of the <hockey game>.¹

Type - The Type of Contract is a swap.

Issuance - The Contract is based on the outcome of a recurrent sporting event. Accordingly, Contract iterations will be issued on a recurring basis, and future Contract iterations will generally correspond to subsequent scheduled <hockey game> within the same league or season as specified by the Exchange.

<hockey team> - Refers to a hockey team or entity participating in the referenced <hockey game>, as specified by the Exchange. <hockey team> may refer to a singular team, multiple teams using OR logic, a team within a set of teams, or teams defined by distinguishing characteristics (e.g., “any Eastern Conference team,” “the home team,” “teams with winning records”). <hockey team> may also take the values “Any” or “None.” The Exchange may list iterations of the Contract corresponding to variations of <hockey team>. If a team name changes, relocates, or undergoes organizational restructuring while maintaining substantial continuity, <hockey team> shall track the successor entity. This will be announced by the Exchange in the event it is relevant.

<hockey game> - Refers to a specific, identified hockey game or set of games specified by the Exchange, which may be defined by specific matchup (e.g., “Blackhawks vs. Blues”), date and time, venue, game number within a playoff round, week of the regular season, or other distinguishing characteristics, or as a combination of several characteristics named herein. <hockey game> may also refer to multiple games (even if non-consecutive), a specified portion of a game (e.g., “first period,” “second period,” “regulation time”), an element in a game or set of games, games defined by distinguishing characteristics (e.g., “any playoff game,” “all games in Week 1,” “home games,” “any NHL game”). <hockey game>

¹ All trademarks are the property of their respective owners.

may also take the values “Any” or “None”. The Contract has not been endorsed by any league or association and the use of any names of any leagues or associations does not indicate an endorsement of this product.

Trading and Settlement - During the Event Contract trading hours, Participants are able to adjust their positions and trade freely. After trading of the Event Contract has closed, Rothera will determine the Expiration Value and whether the Payment Criterion encompasses the Expiration Value (i.e. whether the outcome is “Yes” or “No”). The market is then settled by Rothera, and either the long position holders or the short position holders are paid the Settlement Value. In this case, “long position holders” refers to Participants who purchased the “Yes” side of the Event Contract and “short position holders” refers to Participants who purchased the “No” side of the Event Contract. If the Expiration Value is “Yes”, then the long position holders are paid the Settlement Value multiplied by the number of Contracts held by such Participant and the short position holders receive no payment. If the Expiration Value is “No,” then the short position holders are paid the Settlement Value multiplied by the number of Contracts held by such Participant and the long position holders receive no payment. Specification of the circumstances that would trigger an Expiration Value of “Yes” is included below in the section titled “Payment Criterion”. The Expiration Date of the Contract is designed to account for multiple possible contingencies regarding the timing of the determination of the event. Any subsequent revisions to the initial release of the final result of the <hockey game> by the league or association will NOT affect or alter the settlement value of the Contract once the Expiration Value is determined by the Exchange.

Payment Criterion - The Payment Criterion for the Contract encompasses the Expiration Value where <hockey team> is the winner of the <hockey game>. In order to be considered the “winner” of the <hockey game>, <hockey team> must have scored more goals (a strictly greater number) than its opponent at the conclusion of regulation time (regulation play plus any applicable overtime or shootout period under the governing league's rules). The market resolves based on the first final result reported by the highest-ranked Source Agency in the hierarchy set forth above - a lower-ranked Source Agency's report shall govern only if no higher-ranked Source Agency has published a final result, unless the Exchange, in its sole discretion, determines such result to be clearly erroneous and elects to defer to a corrected final result issued prior to Expiration.

Additional Clarifications:

- Overtime is included in determining the winner as applicable under the governing league's rules. Where the Contract specifies “regulation time only”, overtime is excluded.
- If the <hockey game> is (i) abandoned, cancelled, or (ii) not scheduled or rescheduled to take place before the Expiration Time, the Contract will resolve based on the last

fair market price as determined by the Exchange pursuant to Rothera DCM Rule 7.2. Long position holders will receive the number of Contracts held multiplied by the fair market price, and short position holders will receive the number of Contracts held multiplied by \$1 minus the fair market price.

- If the <hockey game> is suspended during play and is officially scheduled to resume from the point of suspension (i.e., from the game clock, or score) before the Expiration Time, the Contract shall remain open and shall settle based on the final result of the <hockey game> as so resumed. If the <hockey game> does not resume from the point of suspension before the Expiration Time and no final result has been declared, the Contract shall resolve based on the last fair market price as determined by the Exchange pursuant to Rothera DCM Rule 7.2. Long position holders will receive the number of Contracts held multiplied by the fair market price, and short position holders will receive the number of Contracts held multiplied by \$1 minus the fair market price.
- If the <hockey game> is shortened, called, or otherwise ended before the completion of regulation time (e.g., due to weather, unsafe conditions, or curfew), and the Source Agency declares the game final and records a winner, the market will resolve based on that final result.
- If <hockey team> forfeits the <hockey game> before it begins, the market for <hockey team> will resolve to "No", and the market for the opponent will resolve to "Yes".
- If <hockey team> is disqualified, deemed ineligible, or has the result of the <hockey game> vacated after the game has started but before the Contract expires, the market will resolve to "No" for <hockey team>. If such disqualification causes the opponent to be declared the winner, the market for the opponent will resolve to "Yes."
- If the <hockey game> is moved to either an earlier or later time of day than originally scheduled, or to a different venue, the market will remain open and will resolve based on the final result.
- If the official game result is delayed or unavailable, the Exchange may wait up to 24 hours after the Expiration Time for the result to become available, after which it may resolve the Contract in its sole discretion.
- If a Source Agency publishes a result that it subsequently retracts, corrects, or confirms was the result of a compromised, hacked, or erroneous source, the Exchange will rely on the final corrected result published by the Source Agency prior to the Expiration Time.
- Where <hockey team> is defined using AND logic, the Contract shall resolve to "Yes" only if all specified teams are the winners of their respective <hockey game>. Where <hockey team> is defined using OR logic (requiring any one team in a defined set to win), the Contract shall resolve to "Yes" if any one team in the specified set is the winner in its <hockey game>. The Exchange shall specify the applicable logic and the

constituent teams at the time of listing.

- All times are determined in Central Time (CT), which refers to Central Daylight Time (CDT, UTC-5) when daylight saving time is in effect, and Central Standard Time (CST, UTC-6) otherwise, in each case as observed in Chicago, Illinois on the applicable date. Reporting concerning the <hockey game> is considered through the Expiration Time on the Expiration Date and no later.

Minimum Tick – The Minimum Tick for the Event Contract shall be \$0.01.

Position Accountability Level – The Position Accountability Level for the Event Contract is 5,000,000 Contracts for Participants. The Position Accountability Level for Market Makers is 25,000,000 Contracts, or as updated on the Exchange's website.

Last Trading Date – The Last Trading Date of the Contract is the date on which the <hockey game> is completed or otherwise resolved pursuant to the Payment Criterion.

Settlement Date – The Settlement Date is the date on which money is paid to the account of a Participant in whose favor the contract settled pursuant to an Event Contract held until Expiration, and on which money is paid from the account of a Participant who is obligated to pay money pursuant to an Event Contract held until Expiration. The Settlement Date of the Contract shall be no later than the day after the Expiration Date.

Expiration Date – The latest Expiration Date of the Contract shall be two (2) days after the originally scheduled date of the <hockey game>. If an event described in the Payment Criterion occurs, expiration will be moved to an earlier date and time as determined by the Exchange.

Expiration Time – The Expiration Time of the Event Contract shall be 10:00 AM CT on the Expiration Date.

Settlement Value – The Settlement Value is the amount paid to the holder of the in-the-money Event Contract on the Settlement Date. The Settlement Value of an in-the-money Event Contract is \$1.

Expiration Value – The Expiration Value is the value of the Underlying as documented by the Source Agency on the Expiration Date at the Expiration Time.

Contingencies – If the Source Agency does not actually announce a result consistent with the settlement methodology or the Payment Criterion on or before the Expiration Time due to a delay, postponement, cancellation or otherwise in such release announcement by the Source Agency, the Settlement Date, Expiration Date and Expiration Time will be extended

as set forth in the Additional Clarifications section herein. In the event no result is confirmed within the extended period specified therein, the Contract shall resolve pursuant to DCM Rule 7.2. Consistent with Exchange Rule 7.2, Rothera reserves the right to make settlement determinations.

Trading Prohibitions – In addition to the prohibition against the misappropriation of material nonpublic information under CFTC Regulation 180.1, the Exchange's prohibited trading activities set forth in Chapter 7 of the DCM Rulebook, certain additional individuals are prohibited from trading the Event Contract. Those persons include:

- Any player, coach, assistant coach, coordinator, general manager, team executive, trainer, physical therapist, medical representative, equipment staff, or other on-ice or team personnel of any team participating in the referenced NHL game, including injured reserve players, and any individual credentialed by the applicable league, conference or association for the referenced NHL game.
- Any referee, replay official, or other game official assigned to, supervising, or holding regulatory authority over the NHL game.
- Any scouting, analytics, medical, training, or locker room personnel employed by or contracted with a team, conference office, or league entity participating in or overseeing the NHL game.
- Any employee, officer, board member, or contractor of the NHL, NHL Board of Governors, NHL Competition Committee, or any league- or conference-affiliated entity who has administrative access to information relating to game operations, scheduling, officiating assignments, disciplinary actions, injury reports, or competitive conditions.
- Any sports agent, advisor, or representative of a player or team participating in the NHL game.
- Any immediate family member, household member, or close associate of any of the foregoing persons, where such person reasonably may have access to material nonpublic information regarding the NHL game.
- Any individual subject to the NHL Collective Bargaining Agreement, the NHL's gambling policy, the NHL's sports wagering rules, or any applicable conference integrity or ethics rules who has a professional duty to safeguard the integrity of professional hockey competitions.
- Any other Person who, by sole determination of the Exchange, possesses material nonpublic information relating to the Underlying.
